

Regular and Effective Contact

Describe how regular and effective contact among instructor and students will be facilitated. Describe specific synchronous and asynchronous modes; see Curriculum Handbook for Title V requirements.

Adaptations of Methods, Materials, and Delivery of Instruction

Describe how methods, materials and delivery of instruction will be adapted for the distance modality. Describe both the adaptation of the method of instruction and the communication and computing technologies used to deliver the instruction. Describe the student materials required. Do they replace or augment the traditional textbook?
